

Heather Dominick
EnergyRICH® Entrepreneur Success Coach

Heather Dominick

Heather Dominick is the creator of the EnergyRICH® Success System for Entrepreneurs™, the essence of her years of education, marketing training and sales tools. Heather uses this proven step-by-step system to coach entrepreneurs by creating an energetic map to harness their energy once and for all. **Her coaching philosophy is that an individual cannot “do” business, but needs to BE business at a holistic level that integrates thoughts, feelings, words and actions.** She calls this managing your energy. It's important that an entrepreneur do the inner and outer work necessary to activate this skill and belief in them. Only when you have activated this in you, can you fully and confidently present yourself and your business to others. That is what is at the heart of assisting an individual in making any outer changes in their business.

*The key to success is to raise your own energy;
when you do, people will naturally be attracted to you.*
